Our Curriculum Offer

Young people can change their minds a great deal between the ages of 14 and 19 about what direction they wish to take in life. Our curriculum ensures future career options are kept open for as long as possible; we operate a core curriculum for all students to help to achieve this, whilst allowing as much freedom as possible to allow the pursuit of personal interests. Please remember a good range of subjects is preferable.

Below are the option subjects to choose from, use the list to highlight any potential choices you would like to consider and to assist the online application.

Choose 1 from Option A

Then 3 + 1 reserve in order of preference from the Main List
