

Alumni Sir Robert Pattinson Academy

Aaron Aven- University Pikesville USA: "I will be officially migrating to the United States to complete a BSc in Computer & Information Sciences at the University of Pikeville whilst playing semi-professional football in the NAIA Mid-South Conference, for the university.

Even though there have been a few hiccups over the past two years with a few things in the whole process, I cannot thank any of you enough, for all of your; help, career development, personal development and support over the past years.

I just thought you would all like to know that I have finally achieved my goal that I have been working to, throughout my whole school career, so I cannot thank you enough."

Kirby Denton – NQT English Teacher St Georges College Sleaford: Members of staff at St Georges College said "Kirby is fabulous, has the kids enthralled and has a core of steel not standing for any nonsense".

Kieran Smalley – Lincolnshire Cooperative: "It's hard to think that this time last year I was finishing my A Levels and waiting to start a fixed term placement as a Receptionist. Now, a year on, I'm looking forward to a CMI approved degree in business leadership and management with Lincolnshire Co-op starting in September.

That of course is all thanks to you guys at Sir Robert Pattinson Academy. There's no doubt that the support and opportunities that were available throughout my 7 years at the academy have allowed me to develop into the confident person I am today and as a result has opened up this incredible doorway for me, and for that I am so thankful.

I now have an exciting five year development plan in place at the Co-op, which involves completing the degree programme and training up to being a qualified HR Advisor. Businesses want to progress their staff more and more nowadays and I would strongly urge year 11 & 13 students to explore every possible option before deciding which direction their path will go next.

Robert Cook - Master's Degree Mechanical Engineering, University of Lincoln: Robert is now in full time employment working for a railway company in Altringham and studying to qualify as a chartered engineer.

Ryan Todd- First Class Honours Degree Accountancy & Finance, University of Lincoln: Ryan is now in full time employment working for Wright Vigar Chartered Accountants Ryan qualified as a Chartered Accountant in December 2020.

Katie Alexander- Bookings Coordinator Lincoln Cathedral: "I finished my apprenticeship and have landed myself a full time position as Bookings Coordinator at the Cathedral I would like to take the time to thank you for your support with my decision to pursue a different path away from Sixth Form, it's one of the best decisions I've made to date! I feel I'm where I belong".

Oliver Read- Apprentice Logistics Manager: Having completed his A Levels Oliver went on to secure an apprenticeship at Royal Mail in Wigan.

Amy Fenoulhet -Since I left RP in 2015, I graduated from the University of Leicester with a First Class degree in History and Politics. I then went on to work for ASOS.com in London on a competitive graduate scheme. Since last year (2020) I have been working for a top senior civil servant in the Cabinet Office - a dream job and really exciting!
