

9 February 2024

Dear Parent/Carer

Year 12 SSLT Appointments, STEM Tutoring, Year 9 Options - UTC Applications, Year 13 Mock Examination Results Day, Year 13 Parents' Evening – 21 February, Rewards Update, Request for Old Revision/Study Books, NCS, Romeo and Juliet – The Musical

Welcome to my final update letter of the half term. The break is almost upon us after what has been a whistle-stop half term since early January. Show week is always one of the busiest weeks of the whole academic year with many visitors flocking to see us and our wonderfully talented performers, caterers and set designers. Monday seems a long way away after all the activities of the working week. Please find some useful updates below:

Year 12 SSLT Appointments

On Tuesday this week, I announced the latest appointments to our Student Senior Leadership Team in RP6th. After an extremely competitive application round, I am delighted to welcome a bumper number of appointees to post who received both their enamel badges and appointment letters from me during assembly this week and will receive their grey blazer fitting very soon after the half term break. They have already begun to make a difference by attending our Gala evening for Romeo and Juliet, supporting interviews and tours at the Academy, as well as reporting to some of our trustees on Wednesday as part of a governance engagement visit. I am really excited to work with them over the coming twelve months. Congratulations to all on their well-deserved new positions.

STEM Tutoring

As an Academy, we have invested in a STEM tutoring programme. Please see the attached brochure for your reference.

130 students from Year 10 and Year 11 will be receiving weekly tutoring in English language, mathematics, biology, chemistry and physics outside of the Academy working day. This is a really useful addition to our support for GCSE students. It is still possible to purchase sessions. Please contact Miss Empson for further details using lempson@srpa.co.uk.

Year 9 Options - UTC Applications

It has come to our attention throughout the options application process that some students have made applications and accepted offers from the UTC for a September 2024 start and will not continue their studies with us into Key Stage 4.

If your child has applied for and accepted a place at the UTC for a September start, can I please ask you to confirm whether this is the case, by return email to options@srpa.co.uk.

This is in order for us to factor this into our planning for the next steps of the options process for all students. Thank you.

Year 13 Mock Examination Results Day – 19 February 2024

Students will receive their results on 19 February 2024 in the usual formal manner just in time for parents' evening the same week.

Year 13 Parents' Evening – 21 February 2024

Instructions should have already reached all parents expecting to attend this event. Should you have any queries, please be good enough to direct them to the RP6th team using sixthform@srpa.co.uk. Thank you.

Rewards Update

We have had the pleasure of sending 25 names across to Lincoln City for them to provide tickets to the Lincoln v Exeter game on Saturday 17 February 2024. This is part of the Attendance4Attendance scheme and recognises those students with outstanding attendance and behaviour. Miss Taylor has contacted parents of those 25 students and Lincoln City will be in touch with ticket information. We hope they enjoy the game!

If your child attended the Christmas celebration event, please encourage them to complete the feedback form that has been emailed by Miss Taylor. This will help to inform planning for the next celebration event at Easter.

Request for old Revision/Study Guides

A reminder that we are hoping to set up a library for the above where we run a corresponding course. Often, and particularly in the Sixth Form, these books can be quite expensive. We would value any donations from former students which allow us to populate a space in the library as well as in the RP6th study rooms. Any donations may be brought to main reception or the Sixth Form careers hub. Thank you.

NCS

Please find attached information in relation to the National Citizen Service (NCS).

Romeo and Juliet – The Musical

Show week is always a super busy week every academic year and this year has been no different. It was lovely to invite dignitaries to the Academy on Tuesday evening for a buffet prepared by our exceptional Hospitality and Catering students followed by an absolutely tremendous evening of entertainment from a huge cast of very talented young people. It has also been an absolute pleasure to invite primary schools, parents and our own student body to see the show through the week and it has been a resounding success.

"This is a calm, happy and caring school."

Miss France and her team deserve every compliment going for the stunning spectacle that we have all witnessed. I am in no doubt that this is the best production that we have seen in my tenure as Head and look forward to seeing what the team come up with next. Well done everyone!

Laurence Olivier once said "I don't know what is better than the work that is given to the actor – to teach the human heart the knowledge of itself."

If you have seen the show this week, you will know what I mean.

Enjoy your half term break.

I will write again soon.

Yours faithfully

Mr D Hardy
Headmaster

"This is a calm, happy and caring school."

Now it's your time to decide

information leaflet**

Experiences away from home

National Citizen Service (NCS) helps 15-17 year olds build skills for work and life by taking part in new challenges and meeting new people, gaining confidence and independence along the way.

“When my son came back he had just blossomed, his confidence had grown so much it was incredible. I would highly encourage parents to get their teens on NCS, it teaches them to have conversations they wouldn’t normally have the confidence for”.
Parent

NCS away from home experiences are available across the country. Each experience is five days and four nights, and includes a variety of activities centred around one of three themes: Live It, Boss It, or Change It.

The experiences will help boost your young person’s CV and college or university applications - highlighting the broader range of skills they’ve gained to employers and higher education providers.

**Places are
limited!**

**Visit our website
to secure a place
today.**

WEARENCS.COM

About the experiences

About the experiences

Young people have a choice of dates throughout the year. Head to our website, choose your dates, choose your experience, and make a payment if you need to. Simple!

“My daughter has made some new lifelong friends and the experience she’s had has really built her confidence...all of the activities were brilliant and taught my daughter skills for life!” Parent

WHEN IS IT?

All three themes are available throughout school holidays, simply choose your preferred dates during the sign-up process.

HOW MUCH DOES IT COST?

NCS is a government funded programme, which means the costs of the experience are heavily subsidised. To take part in NCS, all we ask for is a contribution of £95 per young person. This includes all travel costs, accommodation, activities and food – a whole five-day trip for £95!

Depending on your circumstances (e.g. if your young person receives free school meals or the pupil premium), you could be entitled to a bursary which would mean the experience is free – you don’t have to pay anything. Get in touch for more information.

IS NCS INCLUSIVE FOR PEOPLE WITH SPECIAL EDUCATIONAL NEEDS OR DISABILITIES?

NCS is for everyone. When your young person signs up to NCS, you will have the opportunity to let us know about their specific needs, including any medical conditions, special educational needs, or disabilities. We will then contact you to develop a care plan so that we can make necessary reasonable adjustments to ensure they can take part. NCS is also available up to the age of 25 for those young people with SEND.

REFUNDS

We offer a 14-day cool off period for you to apply for a refund if you change your mind.

In the unlikely event of NCS being cancelled, you will be offered a full refund.

You’ll stay in a beautiful outdoor location and no matter which of the three experiences you choose, you’ll meet a bunch of new mates, explore your adventurous side, and make memories to last a lifetime.

Young people will be ready to enter the world of work or start their own business. It gives tools, know-how, and inspiration needed to take control and be successful.

They will have the chance to change their community, or even the world, for the better. They’ll explore the issues facing society today, discover their purpose, and turn passions into projects that make a difference.

The sign-up process

Safety & Supervision

1. REGISTER AND BOOK A PLACE

You or your young person register on the NCS website and choose their preferred theme. Complete the details, make your payment and you're done!

- Call the team if you would like to find out more about a bursary.

2. IMPORTANT FORMS

Once signed up, your young person will receive information to login to their NCS portal.

- You will need to help them complete their Joiner Form.
- This is also the time to let us know any specific requirements for your young person (including dietary, religious, or anything else).

3. PARENT INFORMATION SESSIONS

You will then have the opportunity to attend a parent and guardian information session to learn more and ask questions.

4. WELCOME PACK

Before their away from home experience, your young person will be sent a Welcome Pack with all the information they need to know about their experience, including pick-up locations and what to bring.

Your young person's safety and wellbeing is our top priority.

NCS away from home experiences are delivered on behalf of the National Citizen Service Trust, a Royal Charter body, by Ingeus and Youth Hostels Association (England & Wales) (YHA). Ingeus has provided NCS experiences to over 130,000 young people since 2011.

All experiences follow comprehensive policies and procedures, NCS staff are fully trained, and we are fully insured. All staff undergo the following checks and training:

- Enhanced DBS (Disclosure and Barring Service) checks
- First Aid (certified)
- Safeguarding
- Equality & Diversity.

SAFEGUARDING

Safeguarding relates to action taken to promote the welfare of children and protect them from harm. As an organisation that works with people of all ages and backgrounds, we are committed to acting in the best interests of children and vulnerable people, ensuring that all reasonable steps are taken to prevent them from harm.

Frequently Asked Questions (FAQs)

Kit list

Can I speak to someone before signing up?

Yes, you can talk to a member of our team Monday to Friday from 12pm - 8pm, and Saturday 10am - 2pm, by calling 0800 197 8010.

What are the benefits of doing NCS?

Young people will get the chance to meet new people, expand their horizons, learn new skills, and build their confidence. They will have the opportunity to take part in a range of activities, gaining valuable skills to take into their future to make a positive difference for themselves and their community. NCS also looks great on CVs and education applications!

My young person has additional needs, can they still take part?

NCS is open to everyone. During the sign-up process, you have the opportunity to tell us about any additional needs, and then we will work with you to create a tailored care plan for your young person.

Is there help towards the cost of NCS?

If you need help paying for NCS, you can apply for a bursary. Give us a call on 0800 197 8010 before you sign-up.

Do young people have to do NCS?

While NCS is not compulsory, it is a unique and exciting opportunity that is only available to 15-17 year olds (if they are 15, they must turn 16 by 31st August 2023 to be eligible).

Does my young person need to take money on NCS?

Extra money is not needed, but if you want to give your young person extra money to take for shops/vending machines then you may wish to do so.

How will you make sure my young person is safe while on NCS?

Each programme and each activity is risk assessed to ensure their safety. Our team are fully qualified and trained, and every young person is given a code of conduct to follow to ensure the safety of others.

Can my young person do NCS with their friends?

Yes, they'll just need to make sure they all sign-up to the same theme, the same departure date and travel hub. Places are limited so it's best for groups of friends to book at the same time to avoid disappointment.

Where will my young person be going?

NCS away from home experiences are available at sites across the country. During the sign-up process, you and your young person will choose the type of experience and the preferred travel hub for pick-ups and drop-offs. After that, we will confirm in the Welcome Pack the full address of the venue where they will stay for their NCS experience.

Will my young person be forced to do all the activities?

We will never force anyone to do something they don't want to do. We will be there to encourage them to face their fears and be confident to tackle new things.

What is included in the cost of NCS?

All food, accommodation, and travel is provided during the programme and included in the cost. All we ask is that your young person brings some lunch with them for the first day.

Can I contact my young person while they are away?

Absolutely! Your young person might not have their phone with them during the day due to the nature of some activities, but there will be lots of opportunities to contact them and you will also be given an emergency contact number for our team.

Why do I have to fill out my details?

This is to secure a place on an NCS programme, and to make sure your young person has your permission to attend. If you start but don't complete the sign-up process, our team may give you a call to see if we can help answer any questions.

Can my young person take their mobile phone?

Yes, we just ask that they use it considerably and not when they're participating in activities. Charging points may be limited so we recommend bringing a battery pack.

To fully participate in the NCS experience, your young person will need to bring with them a kit of essential items.

All the information you need to prepare will be in the Welcome Pack, but to help you get a head start, here is a list of the essential items they'll need to pack.

- Clothing for the entire trip, including:
 - Underwear and socks
 - Trainers/ comfy shoes
 - Nightwear
 - Warm jacket
 - Raincoat
 - Shoes for showers (e.g. flip flops)

- Toiletries
- Towel
- Small bag for the daytime
- Spare bag for wet/dirty clothes
- Reusable water bottle
- Phone charger
- Snacks (no nuts please!)
- Medication (please label with their name)
- Hand sanitiser
- Pen & notepad
- Lunch (just for the first day)

Your young person can also bring their mobile phones (and chargers!) and money if they choose to.

STEM
TUTORING

UNLOCK YOUR CHILD'S POTENTIAL WITH
GCSE ONLINE TUTOR

WELCOME TO STEM TUTORING

WORKING IN PARTNERSHIP WITH OVER 80 SCHOOLS

We understand that providing the best education for your child is a top priority, and we are excited to share an incredible opportunity that can help them thrive academically. At STEM Tutoring, we are proud to have worked with over 80 schools and 1500 students in the past year, and are passionate about delivering high-quality education to students. Our tutors, who are experienced teachers, from leading schools in the UK, are dedicated to helping your child reach their full potential. Through our live online group tuition classes, your child is able to access high quality resources on a weekly basis to support their educational journey.

What sets us apart from other tutoring companies is our commitment to excellence. Our team of tutors is not just a group of educators; we are experienced teachers from leading independent schools in the UK. Our passion lies in making education accessible to all, and we believe that every child deserves the opportunity to excel. With a wealth of experience and expertise in our subject areas, we are confident in our ability to provide your child with the support they need to succeed.

Through our live online group tuition classes, your child will have access to high-quality resources on a weekly basis to support their educational journey. Our unique approach combines the best of traditional teaching methods with modern technology, ensuring that your child receives a well-rounded and engaging learning experience.

STUDENTS CAN EXCEED THEIR GRADE PREDICTIONS

At one of our partner schools in Luton, students made an incredible 2.3 grade improvement in Computer Science. This academic year, we are aiming to build on this success, with all of our partner schools, through the use of our new past paper revision platform, Exam Insights.

Our Exam Insights platform is designed to empower students by helping them track their progress through past exam papers and the course specifications. It not only highlights key topics for revision but also provides teachers with live updates on students' progress, complete with video solutions for Computer Science. Our goal is to support students in building confidence with past exam paper questions by identifying areas where they may need further learning and reinforcement.

£60 PER GCSE SUBJECT FOR 50 HOURS OF LIVE ONLINE CLASSES STUDENTS RECEIVING PUPIL PREMIUM FUNDING QUALIFY FOR **FREE ACCESS**

We are delighted to introduce our affordable online tuition program, designed to support your child's academic journey. For £60 per academic year, your child can access over 50 hours of live lessons between October 2023 and June 2024 for any GCSE subject. (price excluding VAT)

A-Level tuition is available for a smaller group of students at a competitive rate. Enquire for further information.

All students receiving Pupil Premium Funding qualify for **free** access to our GCSE tuition as part of our Access Project. <https://stemtutoring.co.uk/stem-tutoring-foundation/>

A-Level & GCSE Subjects:

ENGLISH

MATHS

BIOLOGY

CHEMISTRY

COMPUTER
SCIENCE

PHYSICS

KEY FEATURES

CONVENIENT LEARNING

Your child can participate in these lessons from the comfort of your home, eliminating the need for travel and additional costs.

PRICING

We offer the most affordable online tuition for group lessons. On average, we are 10 times cheaper than our nearest competitor for GCSE and A-Level tuition.

SCHEDULE

Lessons take place between 6:00 PM and 8:00 PM on weekdays, allowing your child to balance their studies with other commitments. A-Level tuition takes place on the weekend.

A RANGE OF SUBJECTS

We offer lessons in the following GCSE subjects; English Language, Maths, Biology, Chemistry, Computer Science, Physics and Religious Studies.

HOMEWORK QUESTIONS

Tutors provide weekly exercises and answer sheets to help students develop independent learning skills and topic retention. Whilst this is not strictly homework, we strongly encourage students to make use of these exam question activities.

ASK QUESTIONS

Students have the option to use SLIDO to discreetly ask questions to the tutor, which can be particularly helpful for those who may feel hesitant to ask questions in a traditional classroom setting. This online platform is designed to build their confidence, strengthen their knowledge, and boost their overall learning experience.

CHOICE OF CLASSES - Grade 5 Class or Grade 7-9 class

For each subject we offer two classes per week. Our first class focuses on Grade 5, building a strong foundation, while the other is dedicated to students aiming for Grades 7-9, and offers advanced instruction. Your child has the flexibility of choosing which classes to attend. They have access to both at no extra cost!

HIGHLY EXPERIENCED TUTORS

Our tutors have held senior positions at leading independent schools and have a wealth of experience in teaching GCSE and A-Level subjects with a track record of success in guiding students to hit the top marks.

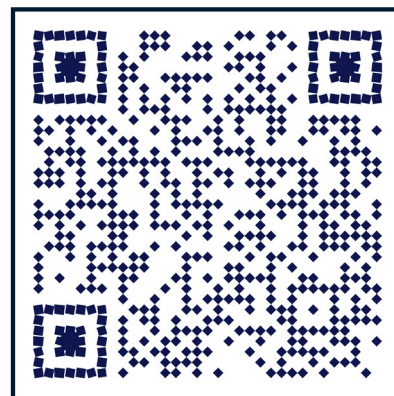

TOPIC FOCUSED

Each lesson focuses on one topic to help students master the subject. This includes theory, application & questions. This will act as revision and also underpin all core knowledge that your child needs to improve their exam grades.

MEET SOME OF OUR TUTORS

Teacher of Maths

Edward Leaf | Maths | GCSE & A-Level

Warwick School <https://www.warwickschool.org/>

Warwick School is a leading independent day and boarding school for boys aged 7-18, set in 55 acres, adjacent to the River Avon, within Warwick town. Warwick School has a very long and rich history stretching back reputedly to 914, making it one of the oldest schools in the country.

“Mathematics is a fantastic subject to teach. I have been privileged to have taught this subject for two decades during which time I have built up an impressive array of teaching resources and an ability to provide a bespoke tutoring experience for students up to A-Level. Whether you are an able mathematician who wants to challenge themselves, a student who wants to maximise their grade or someone who feels that they struggle with Mathematics, I can help you”

Assistant Head Teacher

Dr Stuart Miller | Biology | GCSE & A-Level

Wisbech Grammar School <https://www.wisbechgrammar.com/>

One of the oldest schools in the country, Wisbech Grammar School was founded in 1379 by the Guild of the Holy Trinity. For more than six hundred years the School has played its part in the life of the town, and its presence was the vital factor in the granting in 1549 of a Charter for Wisbech.

“I started at Wisbech Grammar School as the Head of Biology in 2004 after 7 years at Oakham School where I had been a Housemaster, Head of Soccer and Head of the Army Section of the CCF. Before that, after completing my PhD in Virology at Imperial College, I spent three years working in Upstate New York at Cornell as a Senior Research Associate. I am convinced that the best way we can prepare young people for the challenges that they will face in the future is through an education that is holistic and one that fosters self-reliance and resilience. In addition to coaching the Senior Rugby squads, I also organise biennial expeditions and have led teams to Ecuador, Borneo and Costa Rica.”

Head of Science & Physics

Dr John Chilton | Physics | GCSE & A-Level

Oakham School <https://www.oakham.rutland.sch.uk/>

Oakham School is a public school (English fee-charging boarding and day school) in Oakham, Rutland. The Oakham of today with its rich and balanced cosmopolitan community of 50:50 girls and boys, 50:50 boarders and day pupils has its roots in the past. Their 400-year heritage is only part of the story with students learning on a beautiful 70 acre campus in the market town of Oakham.

“In addition to teaching, I also write two blogs – one for physics teachers and one for physics students. I simply love Physics - how could Physics not be one of the most captivating things I could do with my life - I am studying the rules that make our universe work the way it is, and I do this because it is fun - hard ... but fun. And like all good physicists, I do this because it is hard - Physics is best when you can't do it - when it is so hard, that you have to struggle through, trying to do something that you can't initially do - because struggling to do things that we initially can't do, is often when we are at our best. Finally, I have three degrees in Physics, one a PhD from Imperial College. I am a Chartered Physicist, having worked as a research physicist for 13 years (mostly for the UK Ministry of Defence).”

**LOUGHBOROUGH
High School**

Former Director of Academic ICT

Jaspal Singh | Computer Science | GCSE & A-Level

Loughborough High School <https://lsf.org/high/>

Loughborough High School is an independent day school for girls aged 11-18. The School, founded in 1850, is believed to be one of the country's oldest grammar schools for girls.

“With over twenty years of teaching experience, I have had the privilege of guiding students to impressive achievements, including notable successes in international competitions, with participants from leading schools including Loughborough Grammar School, Leicester Grammar School, and Radley College. My teaching philosophy centres around the belief that the fusion of Computer Science and mathematics has the potential to reshape our understanding of the world. I am deeply committed to inspiring more girls into the world of computing through our “Girls For Computing” initiative. We aim to shatter stereotypes and create a class environment where young girls can thrive in technology. Recently, I have supported over 400 schools through the NCCE to raise standards in the teaching of Computer Science. I now look forward to supporting students score top marks in their GCSE studies with STEM Tutoring!”

HEAR FROM STUDENTS

“

The master classes helped consolidate my previous knowledge, and I still learnt so much new knowledge. The resources were even better than the ones my school gives me!! Thank you so much!

Dumebi

Polytechnic Girls School

“

Mr Singh was an amazing teacher and listening to him, teach us, was an amazing experience. He broke everything into understandable chunks and gave us excellent resources. It was an incredible experience and I'm glad I attended the master classes.

Halima

Lynch Hill Enterprise Academy

“

I have grown more confident as a result of the master classes because it fills the gaps in my knowledge about things I quite didn't understand.

Rihan

Lealands High School

“

You not only get well-planned weekly live lessons, you also get an abundance of resources to guide you as well. It's fantastic!

Harleen

Pioneer Academy

“

He explains the topics in a really good way, it helped me learn the topics and understand them.

Luca

Ormiston Rivers Academy

“

It was very helpful! Mr Singh explained things very well and I managed to understand things like the topic of networks, much better, when he explained it.

Aryan

Chertsey High School

“

What I've learnt in the master classes is far more than what I could've by just doing lessons in school.

Jack

Heathside School

“

The instructor was really understanding and made the course clear and fun. I would recommend the master classes to everyone!

Rayhan

Enfield Grammar School

Read more from our students

<https://stemtutoring.co.uk/testimonials/>

HEAR FROM STUDENTS

“

I personally would recommend The CS master class to anyone who is looking to strongly further their knowledge on Computer science in a friendly, interactive environment. Coming into the class, I struggled with binary addition and shifting binary numbers but the classes have really helped me.

Mark

Lealands High School

“

This is an excellent way to consolidate my topics, alongside my past papers and ongoing revision. Access to a numerous amount of resources is also really helpful. Having the revision notes competition is a significant revision incentive. I really enjoyed that!

Sarah

Lealands High School

“

The masterclass sessions have strengthened my knowledge of the syllabus and helped prepare me for the Y11 exams.

Zifan

Chiltern Academy

“

I feel that this program has really helped me learn my weakest points within the subject. Both the resources and the tutor were helpful.

Mio

Camden School

“

I have attended the classes for all of the subjects and was delighted to receive some exceptional assistance, guidance and resources from all the teachers.

Hasnat

Icknield High School

“

Jaspal Singh and Mandeep Singh were the best. I 100% recommend these classes to anyone in year 11. Thank You!

Kartik

Claremont High School

“

The Christmas programming workshop helped consolidate information and provided good practice of exam questions. The resources uploaded to the drive were very useful.

Venus

Sydenham School

“

The resources are very helpful and allow me to go back to the lessons to revise or go over a topic as many times as I choose.

Aaliyah

The Gatwick School

Mr Keshani
Deputy Head
Pioneer Secondary Academy

Mrs Pancholi,
Head of Computing
Orchard Mead Academy

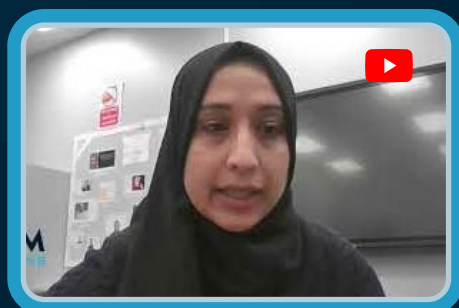

Mr Cole
Head of Computing
Wisbech Grammar School

Mrs Madlani,
Head of Computing
Leicester High School

Mrs Stammers
Head of Computing
Abbey Gate College

Ms Begum
Head of Computing
Icknield High School

HEAR FROM TEACHERS

Students have become better and more confident at answering exam style questions.

Mrs Elliott

Head of Computing
Charles Darwin School

We have been delighted with the progress our pupils have made during their time with Fresh Minds. Jas has worked with 20 of our most able Year 10s, helping them to develop knowledge and skills that would be hard to fit into a normal academic curriculum.

Mr Anderson

Deputy Head Academic
Leicester Grammar School

The students from Enfield Grammar School, really found the GCSE masterclass very useful and eye opening in regard to the level they need to work at in order to achieve a high grade.

Mr Neil Applewhite

Head of Computing
Enfield Grammar School

Students have found the exam paper tracker very very useful and it has allowed them to target their areas of weakness.

Ms Begum

Head of Computing
Icknield High School

Seeing the impact on my students confidence has been amazing.

Mrs Stammers

Head of Computing
Abbey Gate College

The teaching was excellent and the resources that were shared by Mr Singh were brilliant.

Mr Callaghan

Head of Computing
Gatwick School

My students benefited greatly from the summer masterclasses. They came back to school with renewed vigour, enthusiasm and confidence in completing the second year of their GCSE course.

Mrs Okeke

Head of Computing
Fitzharry School

FREQUENTLY ASKED QUESTIONS

Which exam board is covered?

Much of the content and knowledge is the same across boards, of course this knowledge and theory will benefit all attendees. We focus on the core topics that are shared by all exam boards.

Will this benefit my child in Year 10?

The theory and exam question practice will most definitely help year 10 students as this will give them a head start with knowledge. This will help year students by:

Helping them with the learning more of the theory and questions for their end of year mocks

Giving them more confidence in class

Helping them improve their marks

Are the weekly session pre-recorded?

All lessons are recorded for safeguarding. We may make these available in a shared private area in Google Drives for a limited time for any student that has missed the lesson.

Will my child be able to learn in a online group tuition setting?

Yes! A group tuition class helps students gain a broader understanding of the subject matter. Our lessons incorporate real-time polls and quizzes to gauge students' understanding and confidence levels on specific topics. This interaction can enhance their critical thinking skills and provide exposure to diverse perspectives.

PRICING

What would tuition with our tutors normally cost you?

At STEM Tutoring, we're excited to offer an exceptional opportunity for students to access top-tier educational tutoring support from highly experienced tutors. Many of our tutors hail from renowned independent schools such as King Edward's School Birmingham, Oakham School, Warwick School, Loughborough High School, and Wisbech Grammar School. These tutors, who on average charge between £70-£90 per hour for one-on-one online sessions, bring a wealth of expertise and teaching excellence to our group classes, for a fraction of the cost.

What sets us apart, is our commitment to providing access to these exceptional educators for an entire year, with the same resources and professional guidance, that students in prestigious independent schools receive, all at the remarkably affordable rate of only **£60** per subject. We believe that every student deserves access to quality education, and our tuition program reflects this commitment to excellence, without compromising affordability.

In addition to this, your child will have access to our Exam Insights platform for tracking their progress through past exam papers, access to exam paper walk throughs and detailed topic resources to aid their revision and exam preparation.

Can I make monthly payments?

If you make a single payment, it works out around £1 per hour - this is around 10% of the normal tuition fee that most parents pay! A single payment of £60 per subject can be made for the whole years tuition or you can set up a monthly subscription through our payment system of £5 per month. **Pupil Premium students pay nothing!**
