WHO HAS ACCESS TO YOUR PERSONAL INFORMATION?

Under no circumstances do we sell, lease or monetise your personal information. We share information with third parties, but only where we have a legal right or responsibility to do so. Generally speaking, information that is shared within the Academy as part of our duty to provide education is done so on a “need-to-know basis”, with particular care being taken in respect of

special categories of data, such as medical and SEN information. Where we supply personal information to third parties, we encourage people to look at the Privacy Policies in respect of each third party if they want to know more about how their data is used and looked after. Privacy Policies are usually found on the homepage of a supplier's website.

We have set out below the details of third parties with whom we share data and why:

Local Authority Designated Officer: Information may be shared where we are obliged to make a safeguarding referral. This information is handled by the local authority in accordance with their own policies. In the case of the Academy, the local authority is Lincolnshire County Council.

Other safeguarding authorities: this may include social services and child protection services, and the police

Parents: As a general rule, we share information about pupils with parents and other individuals with parental responsibility. If a pupil asks us not to provide information to a parent, or person with parental responsibility, and they understand the nature and legal consequences of their request, then we will usually honour this, unless the law requires us not to.

Examining Bodies: As part of statutory examinations, it is necessary for us to provide pupil information to examining bodies, including names and other personal information as well as tests and papers.

Health and social welfare organisations: In order to support the health, well-being, and safety of our students, we may share relevant personal information with health and social care agencies. Such sharing is crucial for delivering health services and support, including vaccinations, mental health support, and safeguarding against abuse or neglect. It also enables these agencies to carry out their statutory responsibilities effectively.

Department of Education: As part of our public interest obligation, we are required to provide specific sets of data to the Department for Education (DfE) on a regular basis. This includes information related to school enrolment, attendance, academic progress, and pupil characteristics. The DfE uses this data to meet its statutory responsibilities, such as monitoring educational progress and policy development, and to enable the production of national educational statistics. We ensure that the data shared is limited to what is necessary and relevant for the DfE's lawful purposes. For more information on how the DfE processes this data, please refer to [DfE's privacy notice](#).

The Uniform Shop: This is our designated uniform supplier. To facilitate the purchase and distribution of school uniforms, we may share limited personal information with them. This information typically includes student names, year groups, and sizes to ensure the correct fitting and allocation of uniforms.

Sparx Learning: To enhance the educational experience and provide personalized learning opportunities, we collaborate with Sparx Learning, an educational technology provider. In this partnership, we may share limited student data such as names, year groups, and academic performance data. This information is used by Sparx Learning to tailor their educational tools and resources to the specific needs of our students, facilitating a more effective and engaging learning

process. We recommend that parents and guardians review Sparx Learning's Privacy Policy to understand their data handling practices.

Applicaa and other information processing software: To assist us with school administration, we use Applicaa, a provider of school management software solutions. We also use SIMS (School Information Management System) and Frog Drive. These platforms are all software that help us to manage and administer information about our school community. As part of this, we may share certain student and parent information with these various providers. This can include student names, contact details, academic records, and attendance data. Applicaa uses this information to facilitate various school management functions such as admissions processing, attendance tracking, and academic reporting. To fully understand how our providers manage and protect personal data, we encourage parents, guardians, and students to review the providers' Privacy Policies.

We are required by law to provide information about our pupils to the Department of Education as part of statutory data collections such as the school census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013. To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

The department may share information about our pupils from the NPD with third parties who promote the education or well-being of children in England by:

- Conducting research or analysis

The Department has robust processes in place to ensure the confidentiality of data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether the Department releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

Our commitment to data security involves a continuous process of improvement. We are dedicated to regularly updating our security practices in line with technological advancements and legal requirements to ensure the ongoing confidentiality, integrity, and availability of personal data. However, we advise you to take great care over your personal data. Do not provide personal information about yourself or anybody else unless you are satisfied you are taking proper precautions first.

For more detailed information on how Microsoft processes and protects personal data, we recommend reviewing Microsoft's Privacy Statement, available on their website.

HOW LONG DO WE KEEP YOUR DATA FOR?

We are committed to only retaining personal data for as long as necessary for the purposes for which it was collected, in accordance with our legal obligations and best practice guidelines. The length of time for which we retain data varies depending on the nature of the information and the reasons for which it is processed.

1. **Pupil Data:** Personal data relating to pupils, including academic, health, and welfare records, is typically retained until the pupil reaches the age of 25 or for a period of 6 years after they cease to be a pupil at the academy, whichever is longer. This is in line with the Department for Education's (DfE) guidelines.
2. **Staff Data:** Personal data of staff members is held for the duration of their employment and thereafter for a period consistent with employment law and best practice, usually no longer than 6 years after the end of employment.

exceeding 30 days, unless it is being used for the investigation of an incident.

After the expiry of the retention period, personal data is securely deleted or destroyed. Anonymised data, which can no longer be associated with an individual, may be retained beyond these periods for statistical or research purposes.

Please note that in certain circumstances, we may lawfully retain data for longer periods, such as where we are required to do so in accordance with legal, regulatory, tax, or accounting requirements, or for safeguarding purposes.

PUPILS AND PARENTAL RIGHTS

At Sir Robert Pattinson Academy, we understand that parents and carers have a keen interest in their children's education and progress. However, it is important to clarify the extent and limitations of parents' rights to access their children's academy information and files.

- 1. Understanding Pupil Rights:** As pupils grow older and become more mature, they have a right to a degree of privacy and control over their personal information. This is particularly relevant for secondary school pupils. Therefore, the right to access personal information gradually shifts from the parent or carer to the child when they reach secondary school.
- 2. Legal Obligations and Exceptions:** There are specific circumstances where the Academy is legally obliged to provide information to parents. For instance, under the Education (Independent School Standards) (England) Regulations 2010, academies are legally obliged to provide parents with an annual report on their child's attainment in the main subject areas. Outside of these statutory requirements, access to detailed academy files and personal information is not automatic.
- 3. Pupil Consent:** In cases where the pupil is competent to make their own decisions, we will usually seek the pupil's consent to share detailed personal information with parents or carers. This approach respects the pupil's privacy and autonomy.
- 4. Sensitive Information:** For sensitive information, particularly that which relates to the welfare or health of the pupil, the Academy will carefully consider the implications of sharing this information. The decision to disclose will be made in the best interests of the pupil, taking into account their age, maturity, and wellbeing.
- 5. Parental Requests for Information:** Parents or carers who wish to request information about their child should contact the Academy directly. Each request will be considered individually, in line with our legal obligations and the pupil's rights and best interests. We may ask you to complete a form, which will include provision for procuring the pupil's consent.
- 6. Transparency and Communication:** We are committed to maintaining open and transparent communication with parents and carers. While we may not be able to provide full access to all academy files, we endeavour to keep parents and carers informed about their child's progress and any significant concerns.

We encourage parents and carers to discuss any queries or concerns about access to information with us. Our priority is always the welfare and educational development of our pupils, balanced with respecting their rights to privacy and confidentiality.
